Objective

Software Engineering Intern with strong foundation in Data Structures and Algorithms, backend development, and cloud fundamentals. Skilled in building scalable web applications using Python frameworks with exposure to AI-based systems and AWS deployment.

Technical Skills

Languages: Python, Java, C
Web: HTML, CSS
Frameworks: Django, Flask
Cloud: AWS (Cloud Practitioner Certified)
Core: Data Structures & Algorithms, OOP, REST APIs
AI/ML: Machine Learning Basics, Generative AI

Projects

Smart Waste Management System

Django

- Developed a web-based system to manage and monitor waste collection efficiently
- Designed backend logic and database models for structured data handling
- Implemented dynamic user workflows using Python
- Followed REST-based architecture for scalable system design

Achievements

- Solved **100+** problems on LeetCode (DSA focused)
- AWS Certified Cloud Practitioner
